

NC Social Share Follow Us block is a bean block with its own configuration. This allows social links to be added to different pages anywhere a block can be added.

Creating a Follow Us block

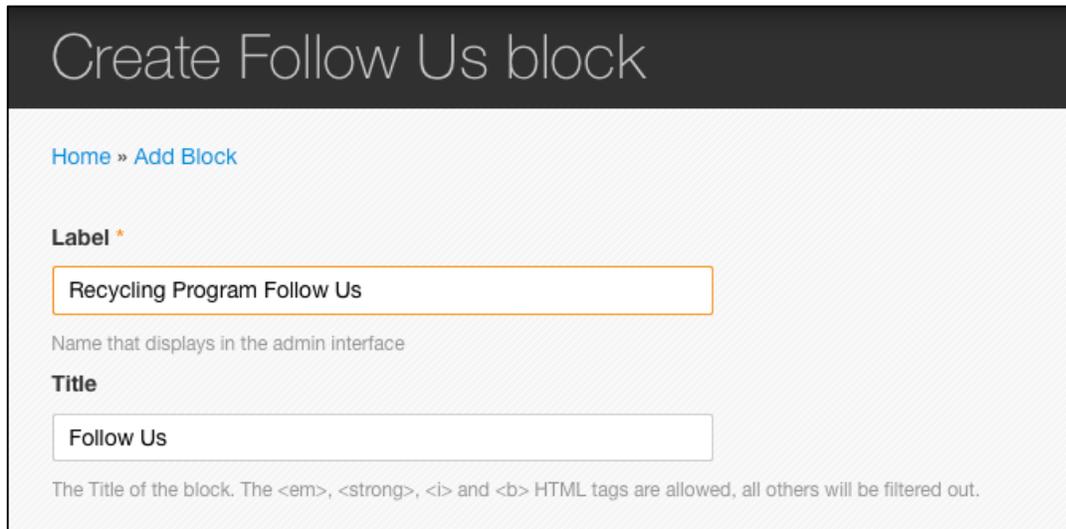

1. Go to Content -> Blocks
2. Click on "Add Block"

3. Click on "Follow Us" type

4. Provide a label for the block. The label is displayed in the administrative interface to identify your block.

Create Follow Us block

Home » Add Block

Label *

Recycling Program Follow Us

Name that displays in the admin interface

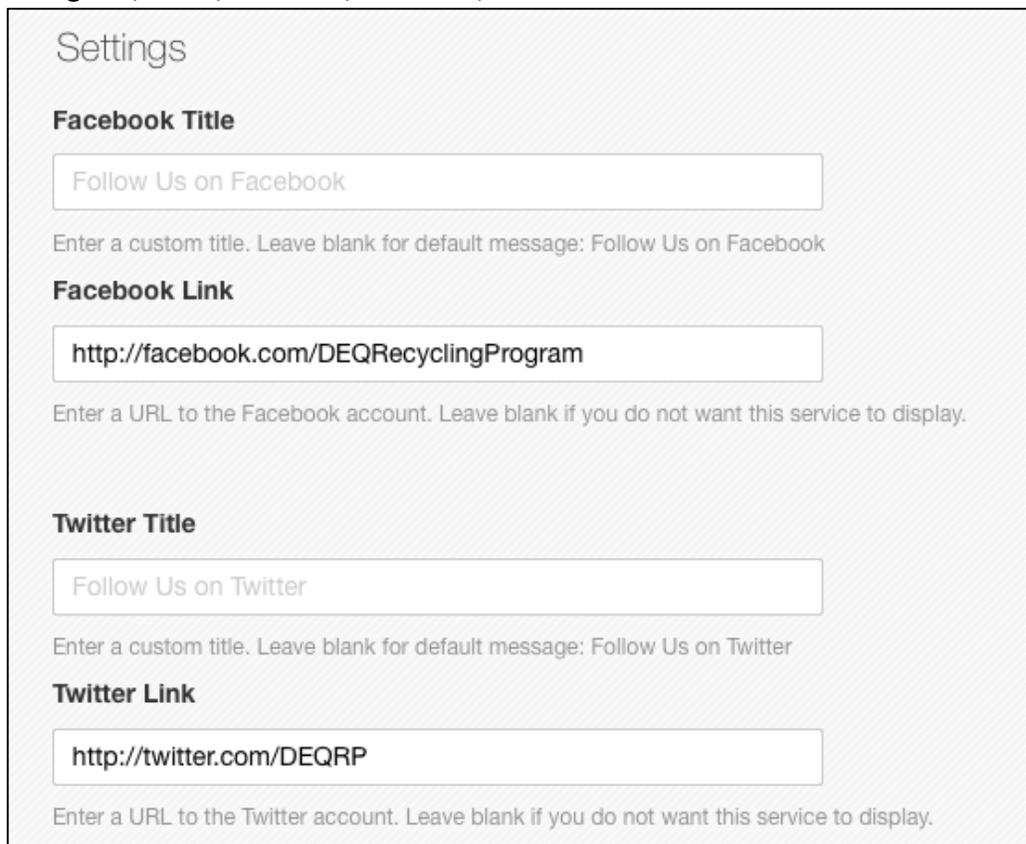

Title

Follow Us

The Title of the block. The ``, ``, `<i>` and `` HTML tags are allowed, all others will be filtered out.

5. Add a title, if wanted. The title defaults to “Follow Us.” The title will appear at the top of the block when displayed in the site.

6. For each of the listed social media you want to display, add the URL. The Title defaults to “Follow us on *Social account*” but you can change that if desired. Only social media accounts with a URL provided will be visible in the block. Available types are Facebook, Twitter, Instagram, Flickr, YouTube, Pinterest, and RSS Feed.

Settings

Facebook Title

Follow Us on Facebook

Enter a custom title. Leave blank for default message: Follow Us on Facebook

Facebook Link

http://facebook.com/DEQRecyclingProgram

Enter a URL to the Facebook account. Leave blank if you do not want this service to display.

Twitter Title

Follow Us on Twitter

Enter a custom title. Leave blank for default message: Follow Us on Twitter

Twitter Link

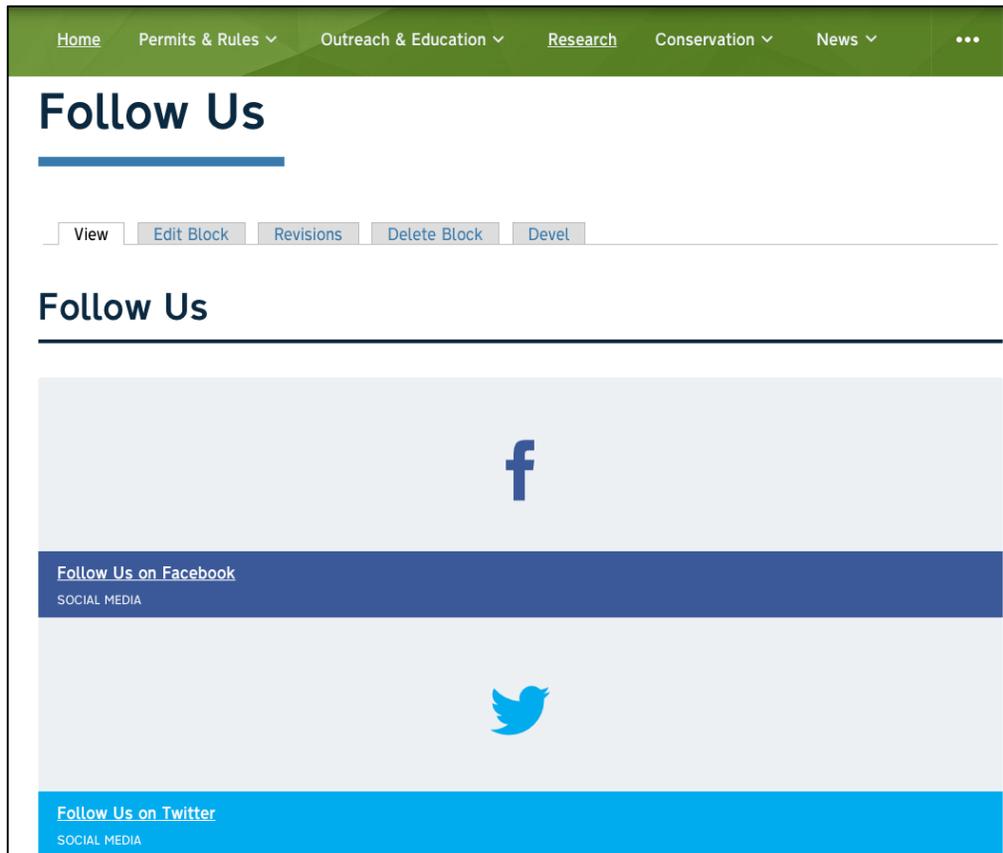

http://twitter.com/DEQRP

Enter a URL to the Twitter account. Leave blank if you do not want this service to display.

7. Click on "Save"

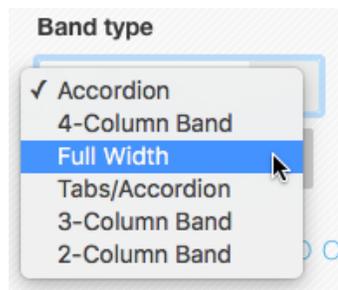

The preview of the saved block displays as the full width of the page. It will be sized correctly when inserted into a band.

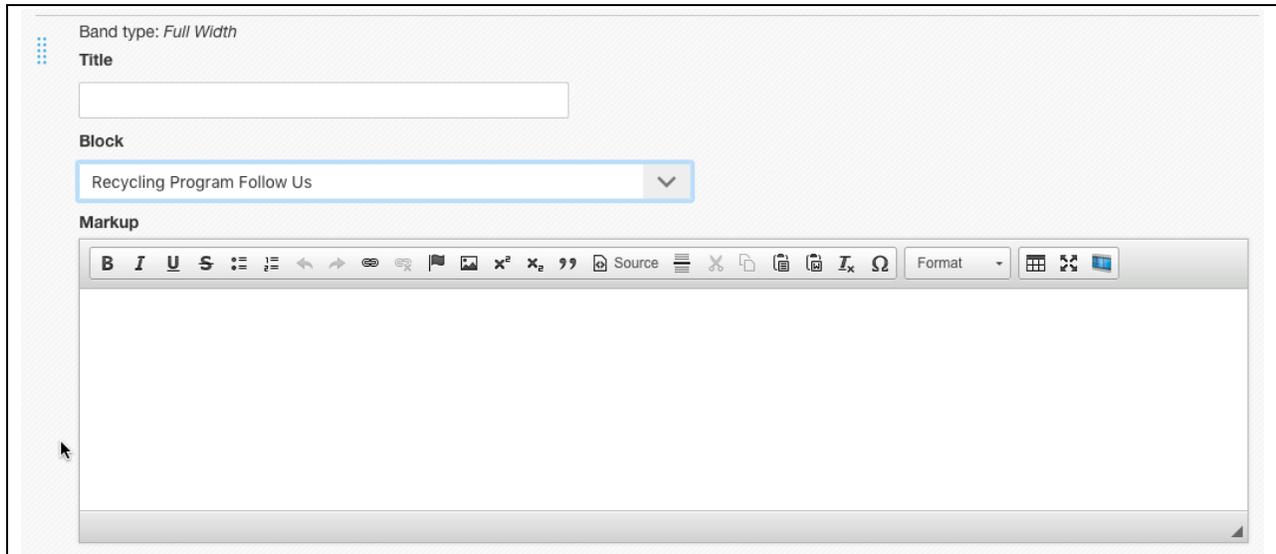

8. Create or edit the page where you want the Follow Us block.

9. Add a new Full Width Band.

10. Select the Follow Us block. You don't need to add Markup or choose a color scheme.

11. Save the page.
